

Seattle Electrical Conference

IEEE Consultant Network Seattle

Friday April 2, 2021

7 am – 11 am

Live Stream Event

*Join us for a conference session on the
IEEE Network Consultant Seattle:*

Event is cosponsored by the IEEE PES Power and Energy

Presentation will include showcase of over 57 consultant companies, building owners, Electrical Contractors, Design engineers, manufacturers, software developers, Electrical testing, marketeers, lighting designers and NGOs. We would like to showcase you. What do you do for your organization?

Our main event will include speakers on Microgrids, 5G, Artificial Intelligence, IoT Internet of Things, digital Twin, smart building infrastructure, space technology, Cloud IT, Global Marketing, Engineering Design, Biometrics/health, and driverless automation. Each session will have its own Q&A to get live feedback on issues you need solutions on today.

Our conference will focus on the building industry. How to make smart buildings, ways to reduce operating expenses, how to design sustainable buildings, how to integrate microgrids IEEE 1547 into existing buildings, next generation UPS for data centers, how to create and maintain safe buildings, how are AI (artificial intelligence) and IoT (Internet of Things) being used in buildings, why keep engine oil clean in generators, software needed to keep the building energy efficient and peak power shaving. How cybersecurity and blockchain is important on maintaining the health of the facility and the Power Grid. How is the FAA making space travel safer? What power and energy consultants need to be successful in today's global pandemic? What is Friday's weather forecast on Mars?

Meet our consultants:

Tam Tran PE, Power Studies

Bob Williams, Integrated Power Systems

Chris Hils, Practical Physics, LLC

Wendi Walsh, W Squared

Phillip Serna, ESR Reliability

John Barkley, Rite Solutions

Dan Velando, Tier 4 Advisors

Hans Frederick, Action Technical

Hal Moroff, Self

Sean Zhou, Self

Marley Smith, PSNS

Bruce Yee, Kohler

We are the IEEE the world's largest technical professional organization dedicated to advancing technology for the benefit of humanity. We have over 37 societies in the Seattle area and beyond.

IEEE Consultant Network Seattle was formed to bring together and network with local businesses, engineers, and the technical and professional community. We foster and promote the interests of our members and provide professional and technical services. We maintain an on-line membership directory and we arrange and provide technical and managerial talks. Join us today!

We thank our sponsors: Kohler Power, Power Studies, Viotech Consulting, Eaton & Grace Technologies.

IEEE Network Consultant Chair Mike Brisbois – mike.brisbois@ieee.org (708)668-5488

The **LIVE STREAM** conference will focus on IEEE Network Consultants in the Seattle area and around the Globe. Sign up Today! Register for the conference at <https://events.vtools.ieee.org/m/252871>
