

IEEE Lightning Protection

May 10, 2023, 12 pm PDT

Live Stream Seattle Washington

Join us for a session on Lightning Protection. What are the components of a lightning protection system? Find out today what makes a lightning protection system compliant with the NFPA 780 standard. Grounding rods, down conductors, surge protection devices, air terminals, bus bars, exothermic welds, test well and copper conducts are just a few components of a compliant lightning protection system.

Chuck Neve is a Facility Protection Sales- Pacific Region at VFC Lightning Protection Master Installer.
