

# IEEE Microgrids Health Care Facilities

## NFPA 99

**May 23, 2023, 4 pm PDT**

*Live Stream from Seattle Washington*

Join us for a session on Microgrids for Health Care Facilities. Find out how microgrids can be used as emergency backup power.

Description on how simple microgrids is providing sustainable, resilient energy for Health Care Facilities.

**Alex Marshall** has the lead global role for business development and marketing at Clarke Energy. Alex moved to Boston, Massachusetts in 2022 to support Clarke Energy's diversification into microgrid projects in the USA. Globally Clarke Energy has installed in excess of 7GW of power across 27 countries. Health Care Facilities have been a key area of growth, primarily linked to combined heat and power with over 220MW in 6 countries. Alex sits on the Executive Committee of the Cogen World Coalition and is a Council Member of the World Biogas Association.
