# IEEE Cybersecurity Threat
## Thursday March 9, 2023, 7 am PST
## Live Stream from Seattle Washington

Join us for a session on Cyber Security. Protect your network. Find out why it is important to keep operations going at your organization. Find out how you can prevent work stoppage.

Threatblockr is the only active defense cybersecurity platform that fully automates the enforcement, deployment, and analysis of cyber intelligence at a massive scale. As the foundational layer of an active defense strategy, ThreatBlockr's patented solution blocks known threats from ever reaching customers' networks. ThreatBlockr utilizes immense volumes of cyber intelligence from over 50 renowned security vendors to provide unparalleled visibility over the threat landscape resulting in a more efficient and effective security posture. Block. Every. Threat.

**Bill Franklin** is currently the VP - Business Development at Threatblockr. He has over 10 years of technology sales experience in both hardware and software. He has vast experience in infrastructure, networking, SDWAN/SASE and cybersecurity, as well as utilizing multiple technologies together.
