

IEEE Tech Talk

The Metaverse: What is it?

August 23, 2022, 4 pm PDT

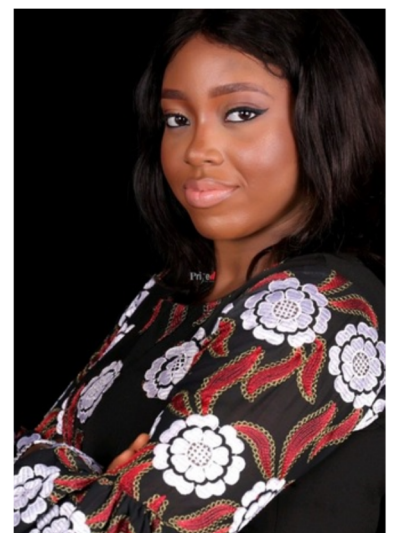

Live Stream from Seattle Washington

Have you ever wondered what it would be like to live in a totally different universe? You can now experience that with the Metaverse. I will be taking you through what the Metaverse is and is not, how you can start living in it, and how it might affect our day to day lives.

Gloria is a cryptocurrency writer and content creator with years of experience in the space. She has worked for several local and international companies, championing the cause of crypto. When she's not exploring the metaverse or the wonders of blockchain technology, she's educating newbies and saying WAGMI.

Find out more about why the Metaverse is taking the industry by storm from local experts. In futurism and science fiction, the metaverse is a hypothetical iteration of the Internet as a single, universal, and immersive virtual world that is facilitated using virtual reality and augmented reality headsets. In colloquial use, a metaverse is a network of 3D virtual worlds focused on social connection. Don't miss this Metaverse special presentation. Sign up today!
