

Thank you for joining us today for the San Francisco Data Center Tech Conference and Expo. The presentation is being recorded but not live stream. All speakers today will have 20-40 minute presentation followed by 5-10 min Q&A.

My name is Mike Brisbois, and I am your host for today's event and also the Program Lead for the Consultant Network Seattle where we foster and promote the interests of our members and provide professional and technical services. We maintain an online directory of our active members and provide technical and management talks, conferences like we have here today.

The Consultant Network is one of the largest technical professional organizations for the advancement of new technologies. We have over 12,000 in the network and over 35 active members.

Today's event is cosponsored by our good friends Earl and Raul in Melbourne Florida.
