

Montana Data Centers via Microgrids

The Evolution of Data Centers

April 15, 2026, 7 am PDT

Live Stream Seattle Washington

Join us for a session on the integration of data centers in Montana. Roads, land, energy, water, food, people, and hardware all integrated into this ecosystem. This stand alone off the grid power station fuels the AI Power hungry Data Facilities. Rick and Ari will speak on the evolution of this clean, resilient, fully functional Data Center region and how this ecosystem got started and how it will progress into the future. Can we save you a seat? Yes
