How to fix the Sensor Problem? We are getting infiltrated by bad actors

Cyber Crime will be the 3rd largest Economy in the World in 2028.

'Cybercrime has grown to become the world's third-largest economy after the US and China, according to the World Economic Forum (WEF). Based on data from Cybersecurity Ventures, it is projected to cost the world \$8 trillion in 2023 and \$10.5 trillion by 2025'.

Major Corporations are taken off line costing the company \$Bs of dollars in lost revenue. How do you prevent future down time due to cyber-attacks?
