

IEEE Health and Electronics Conference

November 11, 2022, 8 am PST

Live Stream from Seattle Washington

Our speakers include:

- Debbie Reynolds, Founder, Chief Executive Officer, and Chief Privacy Officer, Debbie Reynolds Consulting, LLC
- Dr. Paul Cunningham, Executive Director, IST-Africa Institute; President & CEO, IIMC; Director, IEEE Division VI
- Yuri Quintana, Chief, Division of Clinical Informatics, BIDMC at Beth Israel Deaconess Medical Center
- Parimal Shah, GM, SVP & GM Visualization SVP & GM Visualization Verathon Inc., Roper Technologies, Inc.
- Ralph Perrine, Regional Director- Connecting people with solutions in the Energy industry
- Ali Saffari, Director Innovation and Product Development, Experian Health
- Sreeram Dhurjaty, Analog, X-Ray Power, Retrofittable Digital Radiography, Distinguished Speaker, IEEE CTSoc
- Greg Billington, Visa Global Commercial Card Strategy, OLY, PLY, Senior Product Manager
- Maria Palombini, Global Practice Leader, Healthcare & Life Sciences Founder Disruptive Rx™ Media
- Randy Duguay, CEO, Health Gauge & AIML-Innovations
- Leonard Tan, Pharmaceutical Manufacturing, Leadership, Finance, Engineering, Non-Executive Research Scientist
- John Black, Biophotonics engineer Founder, Glannaventa, Inc.

Find out about new trends in the industry. What are the new IEEE Standards in health and electronics? How are medical devices tracking our health? Find out about wearable technology in healthcare including electronic devices that consumers can wear - fit bits and smartwatches - collects data of users' personal health and exercise. Find out about anesthesia machines, surgical lights, tables and chairs, monitors, defibrillators, Electrosurgical, stretchers, microscopes, infusion pumps, and stainless medical equipment, imaging, respiratory ventilators, sterilizers, EKG Machines and Endoscopy systems.
