Fusion Tour – Seattle Washington

Moein Borghei, High Voltage Scientist
A detail-oriented engineer and researcher focusing on optimization and data-driven analysis in various areas of electrical power engineering. Moein has 7+ years' experience of learning and working in this area and has published over 20 peer-reviewed articles. His multidisciplinary research area span across the reliable design of insulation system in electric transportation systems to the planning of resilient power grids and optimization of the power transmission networks.

Avalanche Energy
Fusion Plant
9100 E Marginal Way S
Tukwila, Washington 98108
