IEEE Hydrogen Fuel

May 3, 2023, 12 pm PDT

Live Stream Seattle Washington

Join us this Wednesday at Noon 12 pm PDT for a live session with CEO of Bakken Energy Mike Hopkins as he discusses the new fuel type of the new Era in alternative fueling. Find out how he plans to connect stations across the USA to make this new clean energy affordable and accessible. Don't miss out.

Bakken Energy, LLC, is a clean hydrogen infrastructure development company that intends to be the largest and lowest cost producer of clean hydrogen in the country, starting with the creation of the Great Plains Hydrogen Hub.
