- Alicia Mahon, Ph.D., PMP 'Offshore wind, impacts' Program Manager Pacific Northwest National Laboratory
- Alexander Anderson, PhD, 'GridAPPS-D: data integration for the power grid', PNNL Research Engineer
- Dr. Guosheng Li, 'Battery Energy Storage', Senior Research Scientist at Pacific Northwest National Laboratory
- Dr. Vikas Chandan, 'Benchmark datasets to support decarbonization of buildings', Scientist, PNNL
- Fernando Bereta dos Reis, 'Electric Power Systems Renewable Energy', Pacific Northwest National Laboratory
- Marcelo Guerra Hahn, Director of Engineering, 'Big Data'
- Jeff Bruce, Microsoft Engineer, Types of Batteries for Data Centers
- Bob Williams, Ammonia Fuel Cells, Integrated Power Systems
- David Zornes, Solar Powered Planes, CEO Tip Path USA
- Shaun Rogers, 'Energy Industry Solutions', Trynzc
- Alka Singh, 'Communications in Power Systems', Power Systems Research Engineer PNNL
- Brad Carlberg, 'Autonomous Mill of the Future', Professional Control Systems Engineer
- Paul Shmotolokha, New Use Energy

Our conference will focus on the Tech Industry. Join us in the Tri-Cities this summer for new and innovative technology talks. New EV, AI Robotics technology, health/electronics, hybrid Solar Energy Storage Systems, new use energy Fusion, Solar powered planes, fire sprinkler systems Code updates, battery energy storage systems, process controllers, mini nuclear power plants, smart buildings, Big Data, electromagnetic fusion power plants, Space Technologies, Intellectual Property/Patents. Don't miss out! Join us for the IEEE Tri-Cities Tech Conference 2022! Register today at: <https://events.vtools.ieee.org/m/317852>
