Space Travel Family Vacation

July 26, 2022, 4 pm PDT

Live Stream from Seattle Washington

Find out what it takes to take a family vacation on the International Space Hotel – five years from today.

Robert Moore, Founder & CEO at Virtual Space-Travel 23-year-old visionary. With multiple years of CNC Programming and various 3-D Printing techniques leading me to where I am now. I attended the University of North Carolina at Charlotte for Motorsport Engineering shortly in 2017, before realizing I needed more of a hands-on approach. From there I have worked under several renowned Engineers, Operators, etc. honing my skills.
