

Smart Cities

**WELCOME TO THE FUTURE: Imagine
Jakarta on the 1st day in 2045!**

Ahmed Ragab

Feb, 2023

AHMED RAGAB

HUMAN-DRIVEN DIGITAL TRANSFORMATION ADVOCATE | SUSTAINABLE TECHNOLOGIES AND SMART CITIES LEADER | TEDX SPEAKER

“As a passionate speaker, Ahmed likes to set the stage and the participants’ minds **on fire** with his unconventional talks and visionary thoughts! “

- Ahmed is an award-winning Transformation Practice Leader (UK, 2016) leveraging over 15 years of well-rounded experience in leading large-scale Technology Enablement, Solution Design/Architecture, Process Reengineering, CXO Advisory, and Smart Cities Engagements in the EMEA regions (UK, France, Greece, UAE, KSA, Qatar, Kuwait, Jordan, Libya, and Egypt).
- Eng. Ragab is a visionary transformational leader whose work sits at the intersection of emerging technologies and the global sustainable agendas. Highly regarded in both the technology sector and academic arena as a best-selling author of “The Butterfly Organization”.
- As a trusted CXO Advisor, he is currently serving as a Delivery Manager at one of the global technology giants, Tech Mahindra, leading vertical industries for Oracle Practice – MEA. Prior to joining Tech Mahindra, Ragab was serving as a regional and international Digital Transformation Advisor for the European Bank (EBRD), GIZ, Resilience& and various regional consulting and technology firms in Europe, Middle East and Africa.
- With his niche academic focus; Ahmed has categorially shaped his studies on Smart Cities and Emerging Technologies at MIT and accomplished his MSc studies in Digital Transformation at the University of Hull (UK) to deliver a new governance model for adopting sustainable technologies in smart cities. With this visionary niche, as a guest lecturer, he delivered various classes at the American University in Cairo, Hult Prize, numerous regional and international events in France, UK, Asia and ME.
- An advocate for sustainable technologies, Ahmed works to bridge the gap between the rapid digital transformation and the quality of life for future citizens. In his recent TEDxTalk (2021) Ahmed metaphorically sat the stage to inspire transformational leaders on how to establish authority while coaching the organizational transformation journey as if it's a tango dance!

Why Smart / Cognitive Cities?

SOCIAL

ECONOMIC

TECHNOLOGICAL

Indonesia Smart City Vision 2045

Indonesia in 2045 to become the **5th** largest economy in the world with a GDP of **US\$7.3 trillion** and per capita income reaching US\$25,000

A large commercial airplane is shown from a low angle, highlighting its massive engine and wing structure. The aircraft is positioned on a runway or taxiway, with a vibrant sunset sky in shades of orange, red, and purple in the background. The reflection of the sky is visible on the polished fuselage of the plane.

The village of the past
is the city of the **future!**

- ▶ innovation districts
- ▶ residential, commercial, institutional, and entertainment spaces co-exist
