

Lighting Controls

July 7, 2026, 7 am PDT

Live Stream Seattle Washington

Joe Dung

Join us for a session on lighting controls. Find out how you can manage your lighting, save on energy costs, and provide a more workable office space. Can we save you a seat? Yes.

Joe is client driven environment, constantly innovating new solutions and expanding problem solving skills to exceed customer demands in a punctual manner. Working one-on-one with clients bringing their ideas to life and being able to manage multiple projects simultaneously. Experience in three engineering disciplines, but not limited to: mechanical, electrical, and software engineering.
