

Join us for Lunch

Arc Flash Power Studies

Wednesday December 28, 2022, 12 pm PST

Join us for the Arc Flash Lunch Session. Learn about power studies including incident energy labels, short circuit analysis, shock protection, protective device coordination, and arc flash analysis. Find out why your relays are not working correctly, what type of PPE you should don for the energized work you are doing, and what type of OSHA compliant warning labels that should be on your equipment. Find out more about the IEEE Std 1584-2018 and how it affects your electrical gear. Why is it important to have updated one-line diagrams and arc flash labels? Find out first-hand how to use SKM.

Lunch provided.
