

# **National Electric Code AI Conference**

**February 20, 2026, 7 am PST**

*Live Stream Seattle Washington*

Join us for a live streaming event with updates to the NFPA 70, new AI assisted searches, and expert testimonies. Find out how electrical design and construction are done right saving millions of dollars of infrastructure damage and mitigate loss of human life. Proper electrical design is the key to a long-life facility, operational efficiency and safety of personnel in the industry and public. Can we save you a seat today? Yes
